

# CORONAVIRUS (COVID-19) INFORMATION RESOURCES FOR COMMERCIAL CLIENTS

There's new information and guidance about this pandemic every day. We're helping our clients stay prepared and informed to combat the virus with a compilation of accurate and vetted information resources. We're continually monitoring and updating our service to ensure that as this pandemic evolves, we do too. We'll make sure you're prepared for each new day.

## VETTED AND VALID CORONAVIRUS INFORMATION

It is more important now than ever to be relying on accurate information. We are committed to providing all GIS commercial clients with information that comes from trusted sources including the CDC, NIH, and more - we're continually reviewing resources for accuracy and timeliness. As the coronavirus situation evolves rapidly, we make sure you have the most important information for your business, instantaneously.

## CURATED AND DIGESTIBLE RESOURCES

In such a stressful moment for us all, having access to clear and easy-to-understand resources is vital, both for your safety and for the success of your business. All of our information resources surrounding coronavirus are designed to be communicated simply — giving you access to the details you need to ensure your business stays afloat during this pandemic without overwhelming or confusing you.

## CLEAR AND UPDATED ROADMAPS

Expert recommendations are changing by the hour, and it can be overwhelming to keep up. Rather than asking you to piece together scattered and disjointed information, we give you clear next steps to take in these uncertain times. We're taking the burden off your shoulders, monitoring updates and providing you with clear roadmaps, all guided by the experts. From providing recommendations on how to plan for and endure a quarantine to what to do if someone in your family is sick, we're here to help.

# COVID-19: OUR APPROACH

## PLAN

Making a plan for coronavirus will help save time and stress. Knowing what to expect and how to prepare is the first step. We help you develop a coronavirus action plan for your business and your employees guided by expert-led research and real-time updates from the CDC, the NIH and more. As you face business closures and stay-at-home orders today, and as you prepare for reopening tomorrow, we'll help you develop an action plan that satisfies all of your needs.

## RESPOND

What do you need to do if you're worried that someone in your business has come into contact with coronavirus? Who should you contact? How should you respond and what should you expect? What do you need to do to prioritize the health of your community while also ensuring your business' future? How can you be proactive about responding to rising stress levels and fears in yourself and your employees? We know there's a lot of uncertainty so we help you respond with a clear mind even in these circumstances.

## MANAGE

As this situation develops, we help you manage your changing circumstances. If one of your employees or clients is diagnosed with coronavirus, there are several steps you can take to manage symptoms and limit the spread of the virus. We help you make intelligent choices to prioritize the health of your business and employees and stop the spread of the virus to the larger community. We'll also provide resources and support to help you manage stress and mental health within your organization.

## SUPPORT

As this pandemic develops, we're all looking to the future. What happens after someone connected to your business has had the coronavirus? How do you make sure everyone is healthy again? How does your business stay operational and rebuild after a pandemic? How do you ensure that everyone's physical and mental health are intact? The resources we provide from coronavirus experts and trusted sources will help you find the answers you're looking for.

# INDUSTRY SPECIFIC

We offer specific guidance and resources for industries most impacted by this pandemic. Those industries include:

## HEALTHCARE

Information on how healthcare professionals can stay protected against the virus, as well as how to keep their family and loved ones safe while they remain working. Additional guidance is offered for healthcare workers returning to the front lines after they have recovered.

## RETAIL

Best practices and guidelines for general retail establishments to ensure the safety of their staff and shoppers. Specific guidance is offered for pharmacies, grocery stores, and supermarkets.

## HOTELS AND LODGING

Educational advice, training, and general strategies for operators of hotels and lodging facilities to mitigate risks to their guests and staff. Studies of historical pandemics and their effects on the hotel industry are also included to provide additional guidance.

## RESTAURANTS

Information resources for restaurants that have been forced to suspend normal operations due to the virus. Guidance includes tips on keeping employees safe, best practices for sanitizing the restaurant, as well as relevant info on the CARES Act.

## MANUFACTURING

State-by-state resources for manufacturing plants on how to keep people safe while still fulfilling essential services. Our resources also include instructions on how manufacturing businesses can assist with the production of PPE in their community.

## MUNICIPALITIES

Guidance for municipal governments and officials on how to prevent the spread of the virus and keep local communities safe. Information resources are designed to inform municipal governments as they make decisions about essential services, stay-at-home orders, and eventual reopenings.

## FIRST RESPONDERS

Resources to help protect first responders, law enforcement, and guards against contracting the virus, as well as guidance for what to do after they've potentially come into contact with a positive case.

## EDUCATION

Resources for teachers and administrators on how to make decisions for the school year and maintain educational continuity. Specialized guidance focuses on how to prevent the spread of the virus within schools, as well as information on how kids interact with the virus.

## TRANSPORTATION

Guidance and tips for public transportation workers and truckers to help protect themselves as they continue to carry out their essential services. Advice covers everything from safety precautions for passengers to where to find open food services on the road.

## CONSTRUCTION

Information resources for construction workers to inform their response to the pandemic. Guidance includes webinars on technology and risk management on site as well as advice on how to handle impacts to infrastructure, taxes, and employee benefits.

## FINANCIAL RESOURCES

As the world reacts to the COVID-19 pandemic, many things are uncertain. We have put together resources to help your business navigate any difficult financial times and gain additional support.

Guidelines

Loans

Stimulus

The Senate passed a massive stimulus package (the House has yet to vote but is expected to follow suit). Here are a few of the questions and answers on what is in the stimulus package.

**USA STIMULUS**

The Families First Coronavirus Response Act has authorized more than \$100 billion in aid and addresses paid sick leave, assistance for families, free coronavirus testing, and expanded unemployment benefits.

**FFCRA GUIDE**

Good information on the CARES act and all the financial and business questions and implementations can be found here.

**CARES ACT**

How do I apply for a CARES loan?

**PDF: CARES LOAN**
